BUSINESS LEADERS

COMMITMENT TO YOUNG CHILDREN

We believe that when all young children are given the best opportunity to realize their potential and contribute as productive citizens, Virginia prospers.

We support policies and programs that recognize that children need good health, strong families and high quality early learning experiences during their early years to be most successful.

Virginia's economic well-being and its ability to develop a globally competitive workforce depend on our public and private investments in young children and their families. As business leaders, we believe that high quality early childhood development investments are essential to our states' future and its ability to grow the skilled workforce that Virginia needs to thrive.
